EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Wannisky on 6 February 2007.

The application has been amended as follows:

in claim 1 at line 2, replace "An" with --an--.

The following is an examiner's statement of reasons for allowance:

The claims are considered patentable for the inclusion of the limitations, said opening and closing member being pivotally moved to a position for opening said opening when said developing device is in the development position, the other end of said opening and closing member being located downstream of the pivot center in the rotation direction of said agitating and carrying member, in combination with the other limitations of the claim, which is not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
